Change Management Videos

PRITCHETT created the **clips**™ video series specifically for today's short attention, video-loving audience that favors mobile messaging. The design and delivery are based on powerful psychology and deep research on learning theory.

These captivating 60-second micro-videos deliver key change management insights and coaching to your people's mobile devices or computers using a schedule you prefer.

clips videos cover a wide range of change management topics. PRITCHETT can curate a messaging program based on an organization's specific needs. Optimized for desktop, phone, or tablet, these compelling micro-messages cover the basic principles and help keep your people aligned with the organization's initiatives. Topics include:

Communication
Productivity
Resistance
Individual Accountability
Organizational Alignment

Commitment
Job Stress
Team Building
Uncertainty and Ambiguity
Resilience
